T. BOYELL '72

WILL FAMINE AND THE FIENDS EAT THE EARTH?

PETER POPLASKI

Who can say for sure? Recent evidence lends support to this theory. Others firmly believe our planet will soon be invaded by Communists from Mars, the red planet. Some insist that these aliens have already landed expeditionary parties at Mt. Shasta, California and elsewhere. It appears to be only a matter of time before we fall to one of these disasters or another. Researchers have found that reading comic books is the best cure for anxiety in the face of pending doom. So lean back, get ripped, and enjoy this one. It features a great **TIM BOXELL** cover and interior work by **STEVE STILES** (Adolph Hitler Funnies), **GRISLY** (Dr. Sven's Tales of Terror and A Piece on the Beach), **BILL CRAWFORD** (Rufus the Reptile), **GRASS GREEN** (Rev. Jeremiah Jones), **HOWARD CRUSE** (Barefootz), **STEVE GRIFFIN** (Where It Hurts), and **PETER MANESIS** (back cover).
